Optimize your workflow

with a professional document–creation solution

The transcription set is a digital document creation solution specifically designed to make transcription easy and intuitive. The ergonomic accessories and the innovative SpeechExec Pro workflow software with integrated speech recognition let you manage your jobs easily.

Comfortable and reliable
- Ergonomic foot control for comfortable use even when used over extended periods
- Fast and efficient playback control for quicker and more accurate transcriptions
- Lightweight stereo headphones for enhanced wearing comfort

Enhance your productivity
- SpeechExec workflow software for efficient data management
- Integrated speech recognition for turning recordings into text immediately
- Priority setting for getting urgent recordings processed first

Designed for professionals
- Individual sort and filter options for easy file organization
- Seamless integration into Philips digital dictation solutions

№1
In professional dictation

No 1 in SPS global customer satisfaction survey 09/2015.

Highlights

Ergonomic foot control

The foot control was developed in cooperation with hospital ergonomists and day-to-day power users to ensure a perfectly smooth transcription process with minimal physical strain. Magnetically controlled contact switches and rugged pedals make it extremely durable and give the device and very long life.

Fast and efficient playback control

Start, pause, rewind and fast-forward audio files with only a slight movement of the foot tip, keeping your hands free for uninterrupted typing.

Professional headphones

Lightweight, under-the-chin-style stereo headphones designed to deliver excellent sound quality, with soft ear cushions for enhanced wearing comfort.

SpeechExec Pro software

The SpeechExec Pro software organizes the workflow of dictation files and resulting documents between author and transcriptionist and allows them to monitor the status of their work.

Integrated speech recognition

SpeechExec Pro comes with integrated Dragon speech recognition software which allows transcriptionists to immediately turn entire recordings into text with the push of a button. Corrections can be made to the text file and saved to the author's speech recognition profile for even more accurate results in the future.

Priority setting

With the included priority-setting option, urgent recordings can be prioritized. This guarantees that important dictation files will be identified at a glance and get processed and delivered first.

Individual sort and filter options

SpeechExec Pro Transcribe enables users to search for specific dictation files or filter their dictation list by user-definable criteria. Furthermore, the easy-to-use list-sorting options for single and multiple dictations guarantee a quick overview of dictation files.

Seamless integration

The transcription set can be seamlessly and easily integrated into existing Philips digital dictation solutions.

Specifications

Convenience
Configurable foot control
Lightweight headphone design
Clear job overview
Geared for speech recognition
Versatile audio player
Playback speed control
Automatic file routing

Foot control
Connectivity: USB plug
Product dimensions: 198 mm × 54 mm × 170 mm/7.8" × 2.1" × 6.7"
Weight: 650 g/23 oz

Headphones
Style: under chin
Cable connection: one-sided
Cable length: 3.0 m/10 ft
Connector: 3.5 mm, stereo, right angled
Acoustic system: open
Magnet type: neodymium
Diaphragm: PET dome
Voice coil: copper
Impedance: 2 × 32 Ohm
Maximum power input: 2 × 10 mW
Sensitivity: 103 dB
Speaker diameter: 14 mm/0.6"
Sound quality: optimized for voice playback
Connector finish: gold-plated
Weight: 53 g/1.9 oz

Green specifications
Compliant to 2011/65/EU (RoHS)
Lead-free soldered product

Package contents
SpeechExec Pro transcription and speech recognition software
Stereo headphones LFH0334
USB foot control ACC2330
Quick start guide
